

Dear Friends of the Salmon River and the Salmon River Restoration Council,

One thing that has always defined the Salmon River—and our work here at the Salmon River Restoration Council—is a strong sense of community. We just wouldn't be the same without one another and the energy we create together.

At SRRC, we are expanding our community and we would like to **officially invite** you to join our **new annual membership program** and show your support for the Salmon River restoration movement.

By becoming a member of the Salmon River Restoration Council, you will help our organization continue to fulfill our mission to *assess, protect, restore and maintain the Salmon River ecosystems with the active participation of the local community, focusing on restoration of the anadromous fisheries resources and the development of a sustainable economy.*

Since 1992, the SRRC has brought citizens together to work toward common goals that benefit the Salmon River watershed and its unique community. Our new membership program will create a better-defined restoration community, helping us to provide you with news, information and opportunities. In addition, your modest annual membership dues will help financially support our programs in these times of uncertain funding.

In the years since SRRC began, our program has expanded to include many activities aimed at restoring this beautiful watershed. Your membership will help support:

- ❖ Fisheries monitoring and research, and fish barrier removal
- ❖ Water quality and temperature monitoring of the Salmon River
- ❖ Restoring riparian vegetation
- ❖ Providing a fun and educational watershed curriculum to local school children
- ❖ Non-toxic noxious weed control
- ❖ Fuels reduction around homes and emergency access routes.
- ❖ And much, much more...

As volunteers and staff of the SRRC, this community has worked tirelessly to help restore the Salmon River. We hope we've made a difference. And we plan to continue to do so. **Please join us today and help ensure our future!**

Thank you for your efforts on behalf of the Salmon River,

The Staff and Board of the Salmon River Restoration Council
